
Dealer Specification Checks

- Project must be fully specified or we will specify as NEW
 - Including electrical, hardware and connectors
- Include number of workstations, offices, conference rooms and product line(s)
- Provide full project name not abbreviations
- Dealer Specification checks are to verify quantities and application only
- Giza or CET files need to be converted to AutoCAD (.dwg) files
- Specify in Global USA catalogs for accurate pricing
 - EFG, CPL, EPB, GUS, GCU, GUF, 2DL, GSP, GLC, OTG
- Specification requests must be submitted via the website
<http://specification.globalindustries.com/SpecRequest/>

Files that must be included on the request for scheduling

- AutoCAD/DWG File (Required for large floor plans/multiple floors)
- PDF (Acceptable only for small layouts or typicals)
- SIF File or PDF of Bill of Materials (Required)

*Global suggests sending in typicals first for a check before populating an entire plan.

*Global does not check finishes or verify layouts.

*For additional options, product details or typicals please reference the Global USA website
